

TUTORIAL 1

Project name: Student logging system

Module Name: Login Page

Webpage URL: <https://practicetestautomation.com/practice-test-login/>

● Testcase ID: TC01

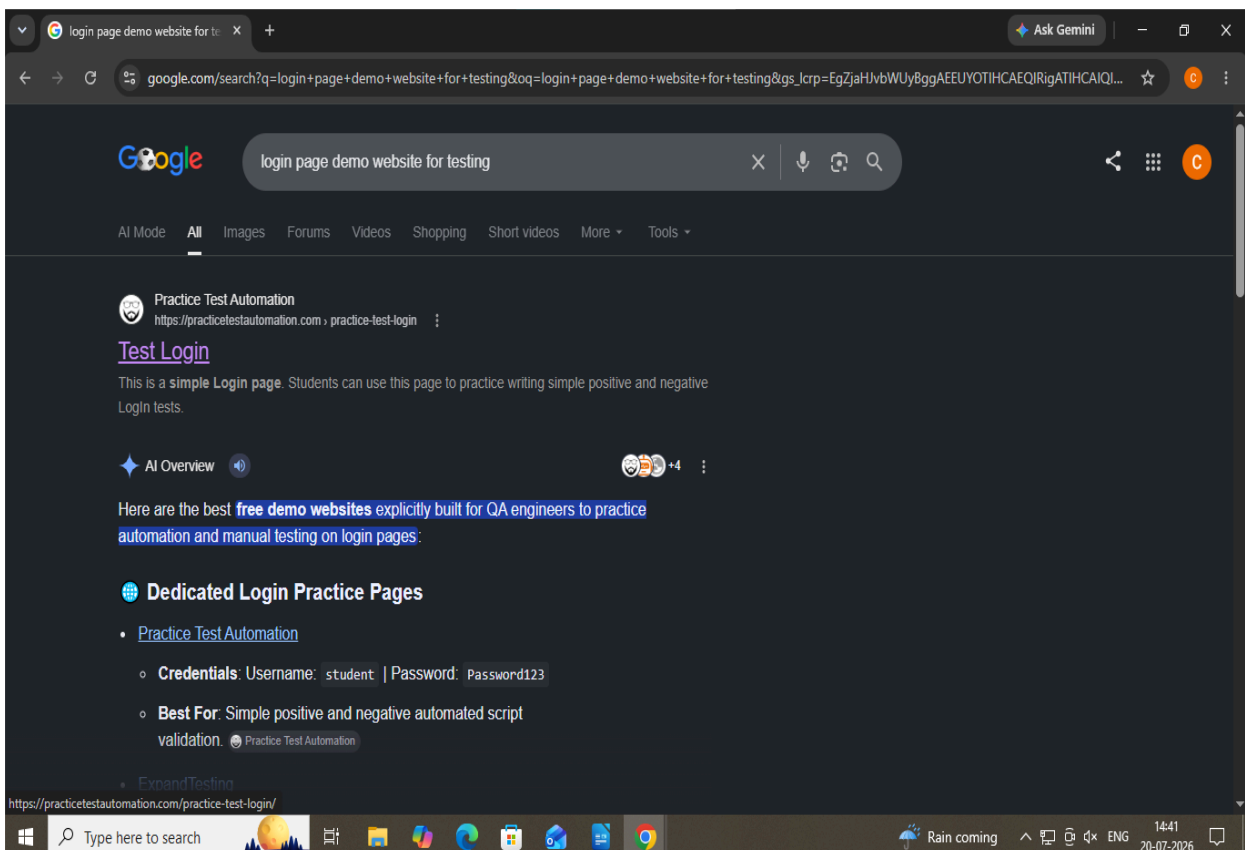

Testcase : Verify Login page is accessible

Test Steps :

1.Open URL

Test Input:<https://practicetestautomation.com/practice-test-login/>

Screenshots:

TUTORIAL 1

The screenshot shows a web browser window with the address bar displaying `practicetestautomation.com/practice-test-login/`. The page header features the 'Practice Test Automation' logo and a navigation menu with links: HOME, PRACTICE, COURSES, AI WORKSHOP, BLOG, and CONTACT. The main content area is titled 'Test login' and contains the following text:

This is a simple Login page. Students can use this page to practice writing simple positive and negative Login tests. Login functionality is something that most of the test automation engineers need to automate.

Use next credentials to execute Login:
Username: **student**
Password: **Password123**

Below the instructions, there are two input fields labeled 'Username' and 'Password'.

The Windows taskbar at the bottom shows the search bar, task view button, and several application icons. The system tray on the right indicates the time as 14:43 on 20-07-2026.

TUTORIAL 1

- **Testcase ID: TC02**

Testcase : Sign up with valid user name password

Test Steps :

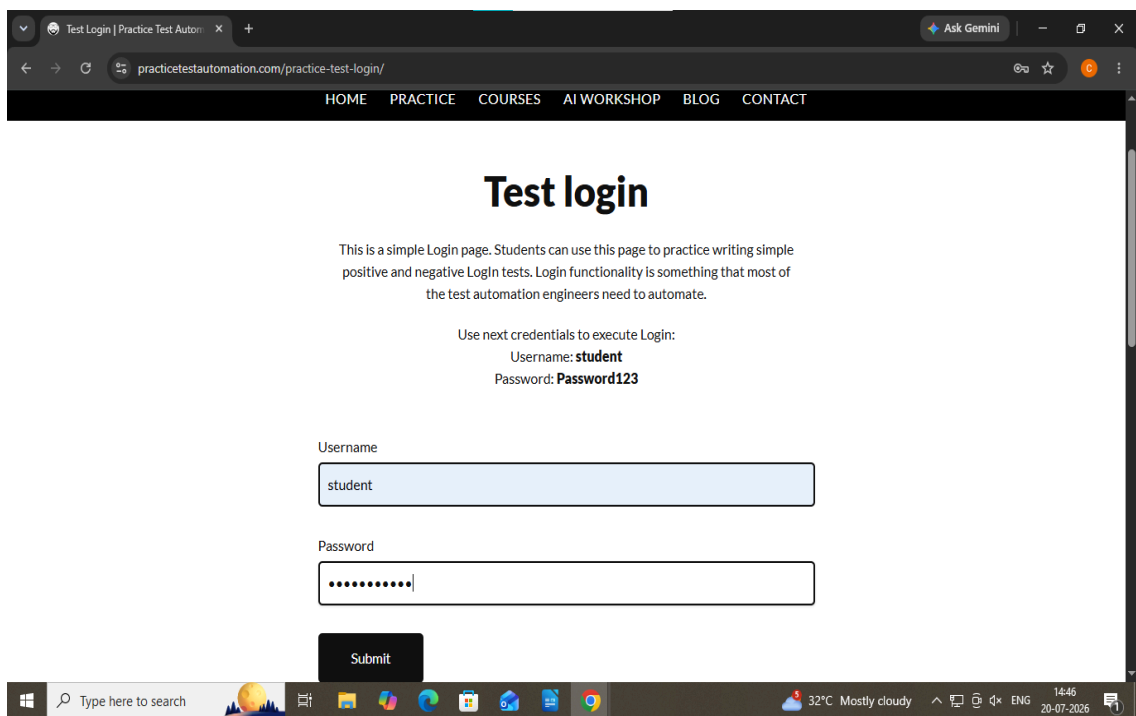

- 1.Enter URL
2. Enter username
- 3.Enter password
- 4.Enter On click button

Test Input:

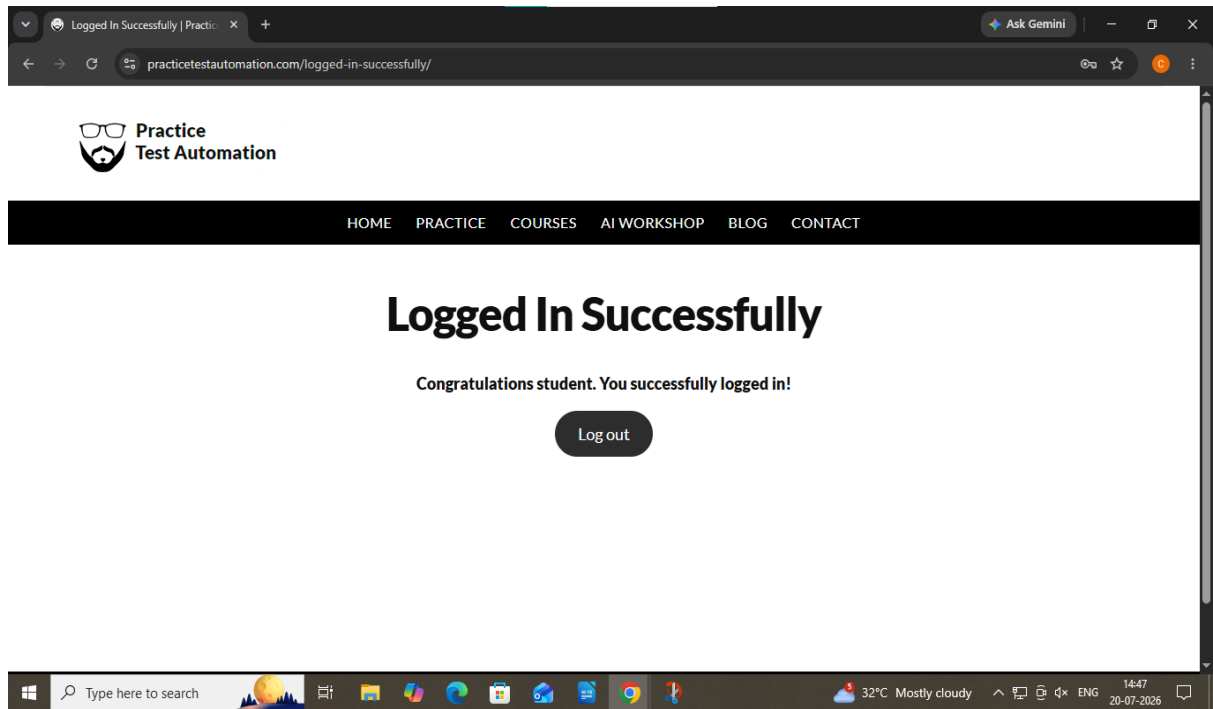

Username:Student

Password:Password123

Screenshots:

TUTORIAL 1

- **Testcase ID: TC03**

Testcase : Verify Login with invalid username

Test Steps :

1. Enter invalid username
2. Enter Password
3. Click Submit

Test Input:

Username: wronguser

Password: Password123

TUTORIAL 1

Screenshots:

A screenshot of a web browser displaying the 'Test login' page. The browser's address bar shows 'practicetestautomation.com/practice-test-login/'. The page has a dark navigation bar with links: HOME, PRACTICE, COURSES, AI WORKSHOP, BLOG, and CONTACT. The main content area has a title 'Test login' and a paragraph: 'This is a simple Login page. Students can use this page to practice writing simple positive and negative Login tests. Login functionality is something that most of the test automation engineers need to automate.' Below this, it says 'Use next credentials to execute Login: Username: **student** Password: **Password123**'. There are two input fields: 'Username' containing 'student' and 'Password' containing masked characters. A 'Submit' button is at the bottom. The Windows taskbar is visible at the bottom of the browser window.

A screenshot of the same 'Test login' page, but after an incorrect login attempt. The 'Username' field is empty. The 'Password' field is empty. The 'Submit' button is present. A red error message box at the bottom states 'Your password is invalid!'. The browser window and taskbar are the same as in the first screenshot.
